DIMENSIONS: 1/2" thick x 5" wide x 72 - 13/16" long	20' CONTAINER: 440 boxes / 10 pallets 13,349.60 sq. ft.
TONGUE & GROOVE TYPE: Precision-milled, 4-sided tongue and groove	40' CONTAINER: Not available
EDGE TREATMENT: Hand-carved, 2 sided bevel	

- Bamboo flooring is not only beautiful and practical, but also easy on the environment.
- Fast-growing Bamboo regenerates to harvesting size in only six years, ensuring infinite renewability. CFS uses only premium grade, six-year old Bamboo, which is the perfect density for flooring production. If harvested earlier, the Bamboo is not dense enough; if harvested later, the Bamboo is in decline.
- 7 Layer, ultra durable, Treffert® UV-cured, acrylic-urethane with aluminum oxide protects the surface and is easy to maintain.
- Due to its unique manufacturing process, Strand Woven Bamboo is over twice the density (hardness) as regular Bamboo and traditional Red Oak flooring.
- Chiseled hand-scraping technique provide depth to the unique Strand Woven Bamboo. Because they are individually scraped by hand, each plank is unique from the others.
- Color and pattern go all the way through the product, ensuring decades of enjoyment.
- Precision-milled tongue and groove provides precise and uniform fit.
- 25 year residential finish.
- Lifetime residential structural.
- 3 year light commercial finish.
