- The Rio Collection is an outstanding assortment of beautifully crafted exotic and domestic species. Available in traditional Smooth Surface, Hand-Scraped or French Bleed designs, Rio features floors made with a thick 2 mm top layer in a medium width offering superb value. Whichever floor is chosen, rest assured it is hand-crafted with meticulous care and attention given to each individual plank.
- 7 Layer, ultra durable, Treffert® UV-cured, acrylic-urethane with aluminum oxide protects the surface and is easy to maintain.
- Multi-layered, cross-ply construction for extreme dimensional stability.
- Precision-milled tongue and groove provides for precise and uniform fit.
- 25 year residential finish.
- Lifetime residential structural.
- 3 year light commercial finish.

Available colors followed by their corresponding species:
